HUBEI HUAGONG WEIYE

COMPLETE EQUIPMENT CO., LTD.

RCNKu High-performance Plastic Chemical Pump

Horizontal plastic chemical pump for corrosive process duties, with a robust metal-armoured volute casing and project-selected shaft sealing.

Standard: DIN EN 22858 / ISO 2858

Size range: DN 80-400

Series flow envelope: Q < 1500 m3/h

Series head envelope: H < 90 m

Materials: PP, PE, PVDF; GGG 40.3 metal armour

Shaft sealing: Single or double mechanical seal

Series-level selection reference. The flow and head limits are separate envelopes, not a guaranteed duty point. Confirm current configuration, materials, motor and availability for the project.
