

Pneumatic Diaphragm Valve

DW/DS

Pneumatic Diaphragm Valve. Available with pneumatic actuator.

Size range	DN15-DN200
Body material	WCB lined PFA,SS lined PFA
Diaphragm material	EPDM,PTFE/EPDM,FPM
Pressure rating	Class150,PN10
Face to face	according to EN558-1
Operation	Pneumatic actuator
Pneumatic actuator	WCB; lightweight; long service life (catalog description)

Pneumatic Diaphragm Valve technical data

Series	Characteristics	Valve Legend
DW/DS Diaphragm Valve	– Size:DN15-DN200 – Body material: WCB lined PFA,SS lined PFA – Diaphragm material:EPDM,PTFE/EPDM,FPM – PN:Class150,PN10 – Face to face: according to EN558-1 – Pneumatic actuator,WCB, lightweight, long service life – Operation:Pneumatic actuator – Application: Chlor-alkali,Chemical,Petroleum,Steel,Fine chemical for high corrosion media and harsh media. For tight-shutt off, excellent sealing and frequent operations
